Error 1706 please insert MS Office Premium CD-ROM

Error Description:

Error 1706 please insert MS Office Premium CD-ROM

Resolution:

If MS Office 2000 is installed on the same workstation where PsychCorpCenter is being installed, you may receive a message to insert the MS-Office CD-ROM into the drive. This is because both installs use the {mscomctl.ocx} and MS Office 2000 requires a refresh of this file. To remedy this situation, insert the MS Office product CD as directed by the message and you will be able to proceed normally.

Additional Information:

You may research this known issue by going to www.microsoft.com/technet using the article ID Q217706 or by tying in the message you receive from the MS Office 2000 directly in the "search" field.
