Target Words score of 34 gives value greater than 22 error

Frequently Asked Question:

Target words subtest gives "Value greater than..." message.

Resolution:

When entering the Target Words score: "Value greater than ..." Delete the score just entered. Note that certain subtests are not entered when reversing.

When generating the report: "The Item Set grade selection for Target Words does not match the current grade of the examinee; therefore quartile scores are not appropriate." This message appears when the clinician applies the reverse rule in scoring. Click the OK button and the report will generate.

Refer to your WIAT II test manual for assistance.
