The instruction 0x66003946 refer memory at 0x0108 a008 the memory could not be read

Error Description:

The instruction 0x66003946 refer memory at 0x0108 a008 the memory could not be read

Resolution:

This message can indicate a Windows System problem. If restarting the computer does not resolve it, contact your system administrator, or other appropriate computer support.

Additional Information:

Event Viewer

With PsychCorpCenter closed, open Event Viewer (Control Panel | Administrative Tools | Event Viewer).
Double-click on Application to see the error message on the right side of the screen. Note the entire information.
If there are errors from other dates, right-click on Applications, left-click on "Clear All Events".
Close Event Viewer and recreate the error. Return to Event Viewer for error information.
