ModMain main: error -2147467259 line 35 operation must use an updateable query

Error Description:

ModMain main: error -2147467259 line 35 operation must use an updateable query

Resolution:

Please contact your technology officer, and have them change the permissions of the install folder. You will need to be granted Full Control of the folder that the software was installed to and all sub-directories.

Find C:\TPC folder. Right click on it and go to properties. Choose the Security Tab and choose Users. Give full control by clicking on the full control allow box at the bottom. Do the same for the C:\program files\common files\Psychcorp center folder.
