

# **DtDOB\_Validate:UCClientdata.ctl Error 91 Error Line 0 Object variable or width Block variable not set.**

## **Error Description:**

DtDOB\_Validate:UCClientdata.ctl Error 91 Error Line 0 Object variable or width Block variable not set

M\_objclient\_updated: UC ClientData.ctl Error 380 Error line10 Invalid Property Value

## **Resolution:**

Click OK to correct this error. If the software does not self-correct, you will need to run the software program repair. Make sure you are logged into the computer as an administrator before you proceed.

1. Place the CD-ROM in the CD-ROM drive of your computer.
2. When the CD-ROM launches, you will be prompted to run program Repair or Remove.
3. If the CD-ROM does not auto launch, click Start and select Run. Type x:\setup.exe (substitute your CD drive letter for X).
4. Place the check mark in Repair and click Next.
5. Follow the prompts through the repair process.
6. Leave the CD in the drive if prompted to reboot.
