

Cannot install to the second hard drive D

Frequently Asked Question:

Cannot install to the second hard drive D

Resolution:

The WAIS-III/WMS-III/WIAT II Scoring Assistant software can be installed to a drive other than the C drive. If it installs to the hard drive C only, that indicates that there was a previous installation of another PsychCorpCenter program. You will need to remove all PsychCorpCenter programs and install them all to the desired location.
