

Elaborate on the acceptable use of multiple test sessions

Frequently Asked Question:

Elaborate on the acceptable use of multiple test sessions

Answer:

Every effort should be made to administer the WIAT-III subtests in one session. If the student becomes fatigued during testing, stop administration at the end of a subtest and allow him or her to take a break. Try to complete testing after the break. If administration must be completed in two sessions, the second session should occur as soon as possible, preferably within one week.
