Hardware and Web Site requirements for Q-Interactive

Frequently Asked Question:

What are the Hardware and Web Site Requirements for Q-Interactive?

Answer:

- iPad 2, iPad 3 and iPad 4. The iPad mini has not been tested at this time. *see note below regarding hardware compatibility
- One (1) capacitive-enabled stylus
- For the WAIS IV and WISC IV two iPads are required.
- Base Web site Will work on Internet Explorer, Fire Fox, Opera, Chrome, and Safari

Recommended:

- Antiglare screen covers to minimize glare from interior lighting
- Durable cases to protect the iPads

A personal computer with access to the Internet through a standard browser (e.g., Apple® Safari® 4.0 or higher Microsoft® Internet Explorer® 7.0 or higher, etc.) and iTunes® installed is <u>not</u> strictly necessary to use Q-interactive, it can be helpful when ordering subtests, exporting data, and to those clinicians administrating multiple Q-interactive installations for groups of users.

*As new digital devices become available to consumers, the Q-interactive team will conduct compatibility tests. It is our intention that Q-interactive will be compatible with those digital devices that are most commonly used by our customers.
