## **Report options**

## The CELF-IV Scoring and Report Assistant has the following options:

• <u>Summary Report</u>

Provides a table of all CELF-4 subtests administered, index scores, raw scores, scaled scores, confidence intervals, percentile ranks, and age equivalents in a clear, concise format.

• <u>Interpretive Report</u>

This report offers interpretive information about relative strengths and weaknesses on CELF-IV index scores as well as the narrative information included in the CELF-IV Scoring Assistant.

Graphs of Core and Index Score and Percentile Ranks

This shows the student's standard scores (40 - 160) and the applicable confidence interval ranges in a graphical display and the Graph of Core and Index Percentile Ranks shows a graphical display of the student's percentile ranks for standard scores and the Graph of Subtest Scaled Scores shows a graphical display of scaled scores (range is 1 - 19) and applicable intervals.

- <u>Graphs of Subtest Scores and Percentile Ranks</u> This shows a graphical representation of the percentile ranks for scaled scores and applicable confidence intervals.
- <u>Therapy Activities</u>

\_This report provides the clinician with suggestions for activities for individual or group therapy. In addition, it provides a customized database for creating therapy activities for any examinee.\_

<u>Classroom Interventions</u>

\_The Classroom Interventions option provides a list of suggestions and interventions for language support in the classroom and the option of writing and saving your own interventions.\_

• <u>Parent Report</u>

\_This report provides general, non-technical information about an examinee's performance on the CELF-IV assessment. This report is available on both English and Spanish.\_

<u>Confidence Intervals</u>

\_The radio buttons for the confidence intervals default to 68% unless a previous report has been run. The available confidence intervals are: 68%, 90%, and 95%. Note: 015 is a more stringent level of confidence and is the preferred method. The .15 confidence interval provides a wider range of significance.\_

• <u>Level of Significance</u>

\_The radio buttons for the significance levels default to .05 unless a previous report has been run. Previous settings are used for the report.\_
