

Scores are wrong on Bell graph for Parent Summary Report

Frequently Asked Question:

My scores are wrong on the Bell graph for the Parent Summary Report

Resolution:

This problem is caused by the font setting on your computer. To resolve this:

- Right-click on your Windows Desktop.
- Click on Properties.
- Choose the Settings Tab.
- Click the Advanced button.
- Change the Font Size to either "Windows Small" or "Normal". The DPI setting will probably be 96.
- Click on "Apply" and "OK".
- Launch the program again and recreate the report. The subtests should appear correctly on the graph now.
