

Access denied error at installation

Error Description:

Access denied error at installation
Error shared non-registered files access denied
Component transfer error access denied to Program Files File Group ASUITE

Resolution:

The software installation must install certain files to the Windows and Windows\System folders. If you do not have access rights to the drive, install cannot continue. Reset the drive rights before and after installing the software. See your network administrator for additional assistance.

Additional Information:

NOTE FOR WINDOWS 7, Vista, XP, 2000, NT USERS: The user must be logged in as the Administrator to install WIAT-II Scoring Assistant. The Scoring Assistant must be installed under the user's logon as it is set to run for the individual by creating a registry entry with the correct path for the program under the users listing. You may need to contact your network administrator or someone from your IT department. The IT coordinator will need to add your account to the Administrator group or allow your account privileges to install software. After the software has been completely installed your account can be reset to prior rights and privileges.
