

# How long does the presentation last?

## Frequently Asked Question:

How long does the presentation last?

## Resolution:

If you want to go directly through the presentation, the estimated duration time is between 1 and 1.5 hours. The training CD-ROM also includes Microsoft Powerpoint presentations, web links, and other documents to read. If you desire to use these additional resources, additional time will need to be allotted for training. This will cause the presentation time to vary widely.
