

I can't find the audio files I need for Auditory Attention and Response Set.

Frequently Asked Question:

I can't find the audio files I need for Auditory Attention and Response Set.

Answer:

The audio files are located on the Training CD. If the Training CD is placed in a CD player, three tracks are available for play: Track 1 is Auditory Attention, Track 2 is Response Set, and Track 3 is Repetition of Nonsense Words.

If the Training CD is placed in a computer drive, the files can be accessed in three ways: (1) play the tracks through a media player; (2) using the file folder selection process, select the folder labeled audio and select the track you need; or (3) access the tracks through links in the Training CD. Select the Index and click on Auditory Attention and Response Set or Repetition of Nonsense Words and then click the link to the audio file.
