

Who can re-roster a student into another class

A user must have both 'Enter data for others' and 'Editing' rights in order to be able to re-roster. This is to ensure students are in the correct class. If you are not able to move a student to a new class, please consult the Rapid Reports administrator that setup your account.

Note: If there is a pre-existing assessment for the student for a past test period, they cannot be re-rostered.
