

Does not print out all information

Frequently Asked Question:

Does not print out all information

Answer:

All the reports generated by CMS-SA are affected by the options you choose by selecting Options > Tables and Graphs, or by clicking the Options button on the main toolbar.

The CMS Tables and Graphs panel allows you choose which tables and graphs to display in the report. You may also click ALL / NONE to display all the tables and graphs or none of them. The selections you make will apply to all new cases until you change them.
