

What font is used for reports in SAWS-A (Windows)

Frequently Asked Question:

What font is used for reports in SAWS-A (Windows)

Answer:

SAWS-A uses your standard Windows fonts when printing reports but does not have an option for changing font size or style. The available options for formatting the report allow for including or excluding the following:

1. Report heading
2. Page header
3. Gray bars in tables
4. Qualitative bands in graphs

The SAWS A is no longer available for purchase. Support for this software will continue for computers that fall within the parameters of the system requirements. For a list of system requirements please see the article in this section titled "System Requirements"
