

Missing Working Memory Domain information on report

Frequently Asked Question:

I am missing the Working Memory Domain Information on my report

Resolution:

If you are not seeing the following items on your WISC-IV Integrated report for Working Memory Domain:

- Process Score Summary: Registration
- Discrepancy Comparisons: Registration
- Process Score Summary: Mental Manipulation
- Discrepancy Comparisons: Mental Manipulation
- Discrepancy Comparisons: Registration vs Mental Manipulation
- Process Score Summary: Longest Span
- Discrepancy Comparisons: Longest Spans

Please navigate to the report wizard - WISC-IV Integrated Options and verify that Country Norm Set and Report Language are set to the correct settings.

The image shows a screenshot of the 'WISC-IV Options' dialog box. The 'Country Norm Set' is set to 'United States' and the 'Report Language' is set to 'English (United States)'. These two dropdown menus are circled in red. The dialog box also contains a list of 'Tables and Graphs' on the left, a 'Subtest Comparison Group' section with radio buttons for 'Overall Mean' and 'Verbal Comprehension and Perceptual Reasoning Means', a 'Source of Base Rate' section with radio buttons for 'Overall Sample' and 'Ability Level', a 'Significance Levels' section with radio buttons for '95%' and '90%' for Confidence Intervals, and a 'Substitution of Subtest Scores' section with checkboxes and dropdown menus for 'Information', 'Picture Completion', 'Arithmetic', and 'Cancellation'.
