

Runtime error 429 activex component cannot create object

Error Description:

Runtime error 429 activex component cannot create object
Runtime error 430 class does not support automation or does not support expected interface
Failed to load control tabstrip your version of mscomctl.ocx is out of date
Cannot launch after installation
ActiveX component not found
Physical database not found error
Error 713 class not registered

Resolution:

The errors may indicate that the WIAT II Scoring Assistant did not install smoothly. Follow these steps to uninstall and reinstall the software:

- Close all open applications before proceeding.
- Click Start, Programs, select Psych Corp Center and click Un-Install.
- Complete Uninstall process.
- Restart the computer and close open applications.
- Reinstall the Scoring Assistant and reboot the system before launching the program.
