MicroCog
Version 4.0

This file includes helpful information about MicroCog, version 4.0. You may
view this file through your CD-ROM.

1. This application is compatible with Windows Vista|2000|XP.

2. In rare instances, you may encounter the following message when installing
MicroCog:

   "Error 1311: Source file not found:/Data1.cab. Verify that the file exists and
you can
   access it."

   If this message appears, click the Cancel button to cancel the installation.
   Open Windows Explorer and create a new folder by selecting File | New | Folder.
   Right-click on your CD-ROM drive and Select Explore from the pop-up menu to
   open the CD-ROM directory in another window. From the Edit menu, click Select All
   to highlight all files on the CD-ROM. Right-click on the highlighted files and
   select Copy from the pop-up menu. Open the folder you created. Right-click and
   select Paste from the pop-up menu. This will paste the files from your CD-ROM
into
   your created folder. Click "Setup.exe" to install MicroCog. For more information
on
   completing the installation, refer to the Booklet Insert or User's Guide.

3. It is important you turn off all background applications prior to administering
   MicroCog. Open applications could affect the timing of MicroCog subtests.
   To close them, use the right mouse button to click on the application icon in
   the taskbar, which is located on the bottom right of the screen, next to your
   system clock. Select Disable, Close, or Exit from the pop-up menu.

4. The required display settings are at least 16-bit color, minimum
   of 800 X 600 display area, and small fonts. To check
   your settings, select Start | Settings | Control Panel.
   Click the 'Display' icon and select the 'Settings' tab.
   Click 'OK' to save any changes.

For additional information about MicroCog, please refer to the application's online
help.
