WAIS-III--WMS-III--WIAT-II Scoring Assistant
Version 2.0

This file contains information about the WAIS-III--WMS-III--WIAT-II
Scoring Assistant, which includes the adult/college
normative data for the WIAT-II. For additional tips and information,
read the online help after you have installed this Scoring Assistant.
You may also view this file from the CD-ROM or through your Windows
Explorer.

1. This application is compatible with Windows Vista|2000|XP.

2. The Demographics heading block (i.e. Name, Date of Birth, etc.) appears
   when the Demograhically Adjusted norms option is selected from the report window.

3. For the WAIS-III tables and graphs, under the Diff between Subtest and
   Mean table, the p value displays the significance
   level based on table B4.

4. Reference SS scores show in table column for all age groups.

5. Error Analysis contains modifications to skill descriptions and corresponding
item
   numbers.

6. The WIAT-II Written Expression standard score computes during age-based
   reporting for ages 8:0 - 8:11, 2nd grade.

7. The preferred system settings for this software are
    16-bit color, minimum of 800 X 600 display area, and
    small fonts. To check your settings, select
    Start | Settings | Control Panel. Click the 'Display' icon
    and select the 'Settings' tab. Click 'OK' to save any changes.

8. When you print reports from cases entered prior to the change for
    Reading Comprehension, a message window will appear prompting you
    to return to the Raw Scores tab window and select an item set. The
    scores for Reading Comprehension will not appear on the report if
    you don't select an item set.

9. The Reading Comprehension Standard Score, not the Raw Score is used
    to calculate the quartile.

10. User should proceed with caution when completing the Error Analysis
    for 'Oral Expression' because you are able to select
    all of the set items even though the Error Analysis only occurs
    with the first nine items.

11. To view the product demonstration, the CD-ROM must be in the drive.

12. Due to the recent Reading Comprehension changes for WIAT-II,
    you must have WISC-III--WIAT-II Scoring Assistant Reading
    Comprehension Service Update, version 1.0.1, installed prior to
    installing the WAIS-III--WMS-III--WIAT-II Scoring Assistant. You
    may check the version number by selecting About PsychCorpCenter
    from the Help menu. Then, clicking the Product Info button to open
    the Product Information window, which displays the
    installed products and their version numbers.
    If you have do not have the Service Update installed on your
    machine, you may receive the following error message when clicking
    the WISC-III--WIAT-II report icon:

WIAT_RO: CreateWiatReport
Error Number: 429 / Error Line: 0
Description: ActiveX component can't create object
Contact: TPC Customer service with this message

If you see this error message, you need to install the WISC-III--WIAT-II
