WPPSI-III Scoring Assistant
Version 2.0

This file includes helpful information about the WPPSI-III Scoring
Assistant, version 2.0. You may also view this file from the
CD-ROM or through your Windows Explorer.

1   This application is compatible with Windows Vista|2000|XP.

2   If you receive the following error message upon login, "TPCDTPIcker Runtime
     error 2147208421 8004331b invalid window," applying this update will resolve the
issue.

3   The preferred system settings for this software are
     16-bit color, minimum of 800 X 600 display area, and
     small fonts. To check your settings, select
     Start | Settings | Control Panel. Click the 'Display' icon
     and select the 'Settings' tab. Click 'OK' to save any changes.

4   If you have version 1.0 of the WISC-III--WIAT-II Scoring Assistant
     on your desktop, you must install the WISC-III--WIAT-II Scoring Assistant
     update, version 1.1.2 after installing the WPPSI-III Scoring Assistant,
     but prior to running the application. You may download this update by going to
     http://www.psychcorp.com and click on the Software Support link.

For additional tips and information, read the online help after you
have installed the WPPSI-III Scoring Assistant.
