

Record Form Type field has nothing in the drop down menu

Frequently Asked Question:

Record Form Type field has nothing in the drop down menu

Answer:

The Brown ADD Administrative Information window contains the ""Record Form Type"" field selection box. The drop-down menu contains the available forms used with the Brown ADD Scales. These include:

- Parent Form - Age (3 - 7)
- Teacher Form - Age (3 - 7)
- Parent Form - Age (8 - 12)
- Teacher Form - Age (8 - 12)
- Self Form - Age (8 - 12)
- Adolescent Form - Age (12 - 18)
- Adult Form Age (18+)

When you enter a new assessment and select the form used, that information is locked to the record and cannot be changed. The field is now grayed-out and not available. If you select the wrong form for a new Brown assessment, you must delete the existing form and create a new assessment using the correct form.

If you have not entered an assessment and the drop-down menu is blank, uninstall and reinstall the software with all background applications closed.
