

# Display Report Window Error 7 error line 315 Out of memory

## Error Description:

Display Report Window Error 7 error line 315 Out of memory

## Resolution:

It is possible to have version conflicts on programs that use newer versions of the Crystal Reports engine for reporting. PsychCorpCenter products such as the Brown ADDS Scoring Assistant and the WAIS III WMS III WIAT II Scoring Assistant use Crystal Reports 8.0 and 8.5 for reporting. At this time, this issue is potentially not correctable on machines that use programs that have the updated Crystal Reports (beyond 8.5). As a work around please install the Brown ADDS Scoring Assistant or the WAIS III WMS III WIAT II Scoring assistant on a machine that does not use the update versions of Crystal Reports.

Other PsychCorpCenter Products that report in Crystal Reports are:

- Brown ADD Scoring Assistant
- WISC III WIAT II Scoring and some versions of the WISC III WIAT II Writer
- WIAT II Scoring Assistant
- DKEFS Scoring Assistant
- PAL Scoring Assistant
