

How do I handle self corrections if a student self corrects after already moving to another item in the same subtest?

Frequently Asked Question:

How do I handle self corrections if a student self corrects after already moving to another item in the same subtest or we have moved on to a different subtest?

Answer:

If the student self-corrects after an initially incorrect response, even if you have moved on to a different item or a different subtest, go back and award appropriate credit.
