

Cannot score a WIAT II report for a nine year old

Frequently Asked Question:

Cannot score a WIAT II report for a nine year old

Resolution:

The WIAT-II assessment is normed for ages 4 years through adults and does have norms for college students. The reports are keyed to the WAIS-III and WMS-III tests, which are normed for ages 16-89 years. The software will not produce a WAIS-III WMS-III WIAT-II Tables and Graphs report if the age is out of the WAIS-III WMS-III norms range.

You may use the WIAT-II only report to report on examinees 4 to 85 years.
