

Is web-based scoring available for progress monitoring?

For progress monitoring, you will see an assess now link in the Next Score column on your PM schedule.

1. Click this link to open the Web-based Scoring window.
2. Once opened, you can click the Instructions button to open the instructions that are read to the student.
3. Start the timer and begin the probe.
4. Mark the items that are missed by clicking on them and if a student skips an entire line, check the box.
5. Once the time is up, you will be prompted to mark the last item read by the student. Then, the score window will appear.
6. After you click OK, the schedule list will open and you will see a **View Results** link.
7. Click this link to view the probe results.
