

How are the progress monitoring descriptions obtained?

The Progress Monitoring descriptions are displayed based on the rate of improvement (ROI).

Above Target-- the difference is greater than .5 WRC

Near Target-- the difference is less than .5 WRC, either + or - of the Goal ROI.

Below Target-- the difference is lower by .5 WRC than the Goal ROI.

Insufficient Scores--there are 2 or fewer entered scores.

When the case is completed (a score entered on the last scheduled date) the final score is compared to the goal score. If it is above, then it displays Goal Achieved. If it is below, then Goal Missed.
