

ABAS-II Scoring Assistant and Intervention Planner Read Me

Version 2.0.2

This file includes helpful information about the ABAS-II Scoring Assistant and Intervention Planner. The 2.0.2 update includes the following fixes:

CR 35992	Corrected issue in Table B.8 related to the differences between single Skill Area Scaled Scores and Average Scaled Scores required for Statistical Significance. Updated values are highlighted in the table below.
CR 35702	Corrected issue with export option not being available after only installing the ABAS-II Intervention Planner and Scoring Assistant.

Table B.8 Differences Between Single Skill Area Scaled Scores and Average Scaled Scores Required for Statistical Significance (Critical Values) and Differences Obtained by Various Percentages of the Standardization Sample (Base Rates): Parent/Primary Caregiver and Parent Forms *(continued)*

Parent Form (Ages 5–21)			Mean of Conceptual Domain				
Skill Area	Significance Level		Base Rate				
	0.15	0.05	1%	2%	5%	10%	25%
Communication	1.36	1.66	4.00	3.67	3.00	2.33	1.67
Functional Academics	1.32	1.61	4.00	3.67	3.00	2.33	1.67
Self-Direction	1.31	1.60	4.33	4.00	3.33	2.67	1.67
