

Customer can not enter "Simple" or "Complex" demographics.

Simple and complex demographics are only available in the Test of Premorbid Functioning (TOPF). If the WAIS-IV SA or Writer, or WMS-IV SA or Writer, is not activated, then the ACS: Test of Premorbid Functioning is not available to the user for selection.

Social Cognition will be the only ACS option if ACS is installed alone, without any WAIS-IV or WMS-IV.
