

# In the PCAT exam, can you go back and change answers after you have entered them?

Item review is only permitted for some exams or certain sections of exams of the PCAT.

Candidates can go back and forth within each section if they are within the time limits.

Candidates cannot navigate between the sections of the examination and they cannot go back to a section after time has been called.

Candidates must take the test in the proper testing sequence.

A testing tutorial and practice exam can be downloaded from <http://pearsonvue.com/athena/>

On the **PCAT practice test**, candidates can go back and review responses for some items.
