

Can I delete an assessment battery?

Frequently Asked Question:

Can I delete an assessment battery?

Answer:

A test battery that has been administered to a client can not be deleted. However, you can archive a battery. After you have transferred your assessment battery from Q-interactive Assess to Q-interactive Central, you need to log into Q-interactive Central via Qiactive.com and tap on the Assessments tab. Given the assessment has been scored, the battery is located under the Reporting and Exporting section on the Assessment home screen. By scrolling down you can see this section. Tap on the assessment battery name and you will have access to its results, including observational notes and the captured responses you wrote. Tap on Archive to archive the battery.
