

# How do I print the page I am viewing?

## Frequently Asked Question:

How do I print?

### Document Viewer

**Instructions:** Move your mouse over the screenshot below for a description of each part of the Document Viewer.

#### Shortcuts

The **Shortcuts** panel contains buttons that are helpful when you are viewing a document. They include:

**Main Index** - opens the Main Index of documents that are available in the User's Guide.

**Top of Document** - scrolls to the top of the first page of the document being viewed.

**Open PDF Version** - opens a PDF version of the current document (if available). **Tip:** this format is useful for printing the document or saving the file for use outside of the User's Guide.

**Previous Document** - opens the document listed in the Index sequentially preceding the current document (if applicable).

**Next Document** - opens the document listed in the Index sequentially following the current document (if applicable).

To download the latest version of Adobe Reader, click the link below

## Answer:

When attempting to print a document, click on "Open PDF Version" on the left menu area as indicated below. This format is useful for printing the document or saving the file for use outside the User's Guide.
