Cannot enter all the scores

Frequently Asked Question:

Cannot enter all the scores

Answer:

The test is broken into the following norm groups.

- 3.0 - 3.11
- 4.0 - 4.11
- 5.0 - 6.11

The Scoring Assistant software automatically selects the subtests based on the age of the child. If you have administered an assessment for a child that was not intended for their age range, you will not be able to enter the scores in the Scoring Assistant. Please refer to the Examiners Manual for instruction on selecting the proper item set.
