

# Cannot open example file

## Frequently Asked Question:

Cannot open example file

## Answer:

The CVLT-C Scoring Assistant software opens to a blank screen. You must open an existing database or create a new database before you can create new examinees.

1. Click Start, Programs, and select CVLT-C Scoring Assistant. The software opens to a blank screen.
2. Click File and select Open Database. Highlight the preferred database and click OK.
3. New Demographics: When the blank Demographics screen appears, enter the new Demographic data.
4. Open Existing File: Click File and choose Open to choose an existing record. Click OK.
