

Required information for the examinee file has been left blank or incorrect

Error Description:

Required information for the examinee file has been left blank or incorrect

Resolution:

This error indicates that an invalid score was entered, or a field was left blank. If you receive this message, make sure that all fields have data entered. If all fields have data, make sure that you have entered appropriate data for that particular field. It is also recommended that you do not enter in random data as this increases the possibility of an invalid entry.
