modMain: Main error# 70 / error line 90 permission denied

Error Description:

modMain: Main error# 70 / error line 90 permission denied

Resolution:

This error is received when you do not have enough rights to the install folder. Please contact your IT staff to obtain permission (Full Control) for your program folder and its contents. This is typically C:\Program Files\PsychCorpCenter or C:\TPC if you are using the latest version of PCC software.
